National Webinar on "Cyber Security & Intrusion"
Organised by: Department of Computer Science
Kokrajhar Govt. College,
Kokrajhar

Event: National Webinar on "Cyber Security & Intrusion"

Date: 24.03.2021

Venue: Online Through Cisco WebEx Platform.

Objective: To provide ample information of cyber attacks, intruder and to have basic knowledge on Cyber Security & Intrusion.

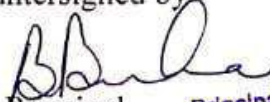

Outcome: Learners would be able to understand how cyber attacks are made and how to prevent it.

The National webinar on "Cyber Security & Intrusion" was organized by the Department of Computer Science on 24th March 2021. The webinar was chaired by Dr. Banabina Brahma, Principal, Kokrajhar Govt. College, Kokrajhar where she welcomed all the participants addressing the Resource Person as well. She focused on the cyber attacks, cyber crimes, and online frauds. By praising the participation she wished everyone would have a quality time joining the webinar. Mr. Nilotpal Brahma, was the Resource Person of the webinar who is a Cyber Security Professional, from International Business Machines (IBM), Bangalore, India, and expertise in Thread Hunting, Intrusion Analysis, and Security Operations. He mainly talked about how to perform tasks keeping safe online. He discussed the 3 pillars of cyber security CIA TRIAD. He also familiarised the participants with how CCTV Camera, or Smartphone can be hacked with intruder. He anticipated to give knowledge on how a layman could browse internet, use the cyber space or do online shopping with minimum risk. There was an interesting interaction session at the end of the webinar where mostly student participants asked about how safe is cyberspace? How it can be secured? Some participants they were eager to know more about ethical hacking, dark web and whether Facebook, Whatsapp is really safe to use it or not. Mr. Pranchis Narzaree, HoD, Computer Science, Kokrajhar Govt. College, coordinator of webinar, hosted the event and coordinated the participants with the resource person during interaction session. Ms. Rupali Khaklary, Asstt. Prof., Computer Science and Mrs. Soma Dewanjee, Asstt. Prof., Computer Science actively took part as a technical team member. Finally, the webinar was ended by vote of thanks from the HoD Computer Science, Kokrajhar Govt. College.

All together 80 participants were present in the webinar (out of which 17 were Faculty members and 63 were students). The main objective of the webinar was to provide information about cyber attacks, cyber security and intrusion.

Total Participants: 80
Total faculty Participation: 17
Total Student Participation: 63
Total Male Participants: 52
Total Female participants: 28

WHAT IS AN INTRUSION?

Un-authorized or illegal ways of entering someone else' property, network, cyber space with wrong intentions.

Examples:

- Compromise of a company's network
- Hacking a system, server, router
- Hacking a website
- Hacking someone's email account
- Bypass or evade firewall blocking (security)
- Hacking a CCTV camera (IoT)
- Hacking into a smartphone and compromise personal data ..etc.
